# Saving Time Online

FROM **THE WINSTON CHURCHILL SCHOOL**

---

## Story

Instead of bombarding our year 9 students with loads of booklets and application forms at options time, we decided to transfer the process to Frog. This year all course information, including vodcasts from subject leaders, were delivered to students and parents through our options website.

## Impact

This meant there were no mistakes and deadlines were kept for submission for the first time ever! An added bonus was that because we'd done it through Frog, we didn't have to type each record up, which allowed us to complete the process by the end of March Instead of the end of May.
