Appraisal & CPD

Designed by schools, for schools – Everything is possible with **Frog**

A completely customisable professional development platform ready for use in **FrogLearn**.
Manage staff appraisals, lesson observations and training.

Meaningful Appraisals | Recorded Lesson Observations | Effective CPD

frogeducation.com/academy

Easily manage appraisals, lesson observations and Continual Professional Development (CPD) with the **Appraisal System** available in **FrogLearn**. It's a uniquely flexible system that reduces administration, providing a measure of personnel development and progress.

"Hosting one CPD event used to take 5 days to organise and administrate. The Appraisal System in **FrogLearn** enables us to share a CPD catalogue and manage individual development in one place, minimising administration across the MAT."

Bernadette Pettman, Finham Park MAT

HEADTEACHERS

With appraisals, CPD and lesson observations recorded through Frog you have access to a central place to assess overall progress and development of staff within the school.

Using the Appraisal System in FrogLearn you can administrate your CPD programme centrally to avoid duplication of effort and ensure everyone has access to relevant information, at the same time. Use of digital forms enable staff to easily register for events whilst all details are instantly collected and collated, reducing errors.

Find out how effective appraisals, CPD and lesson observations have been in creating a motivated and successful team using the analytics available. Filter your view at school, department or individual level to easily get to the information required.

SUBJECT LEADERS/LINE MANAGERS

Stay close to your team with a digital record of their achievements and appraisal activity. With everything uploaded to Frog, you've no need for paper notes. Simply work through your objectives together and record it all on Frog's Appraisal System.

As teachers can upload their evidence as it happens, you can track their progress and development regularly and have an ongoing dialogue with your team. Use the integrated analytics to report back on departmental/year group progress and highlight best practice.

TEACHERS/STAFF

Managing appraisals and CPD activity is a dream with Frog. No additional logins to remember -you'll use your existing one for Frog - everything is in one place for you.

Ditch the paper preparation before an appraisal meeting and upload evidence throughout the year. Get recognition for work you are most proud of and benefit from an ongoing dialogue with your line manager. Your individual evidence log will be looking great in no time!

With your CPD on Frog, it's easy to view, register and feedback on qualifying events. A built-in forum enables you to converse easily with colleagues and share your learning.

*Based on an average secondary school spending over £2,000 on a CPD system alone. Administration time has not been calculated but is likely to increase the overall saving experienced.
