Capturing examples of students’ work couldn’t be easier!

Make professional judgements and upload evidence on the go with the FrogProgress app.

- Reduce teacher workload, allowing pupils to upload evidence to their learning goals.
- Signpost and share evidence with parents to help support their child’s learning.

“Children themselves are seeing their progress and starting to feel excited about their learning – they say if positive comments will be going on Frog so their parents can see them.”

HELEN BROUGHAM
Headteacher
Moorhouse Primary School

“Children themselves are seeing their progress and starting to feel excited about their learning – they say if positive comments will be going on Frog so their parents can see them.”

ANDY MCDONALD-BOWYER
Deputy Headteacher
Davison CE High School for Girls

“We wanted a 360 view on things, so students could see what they were striving for and how they could get there.”

FrogProgress aligns entirely with the new 2019 Ofsted Inspection Framework and its focus on curriculum Evidence Capture.
A cloud-based assessment solution designed in partnership with the National Association of Headteachers (NAHT).

Pre-populated with the National Curriculum. Enables bespoke curriculum design.

Includes a mobile app, enabling anytime, anywhere judgements to be made.

Links to your MIS and includes contextual data such as Pupil Premium, free school meals etc.

Allows teachers to capture photos, videos, audio and intelligent document scans as evidence.

Provides access for parents to support and understand their child’s progress.

Works for every school, across all key stages.

The quality of teaching across the school has improved considerably with Frog Progress. Pupils who previously made poor progress are now catching up.

Pre-populated with the National Curriculum, the NAHT Curriculum, Special Needs Curriculum and many more.

Upload exemplar materials so staff, pupils and parents understand what needs to be achieved.

Allow staff to share lesson plans, teachers notes, revision materials and homework.

When combined with Frog Play, teachers can set self-marking quizzes to plug attainment gaps.

Provides access for parents to support and understand their child’s progress.

Works for every school, across all key stages.

Frog Progress is a cloud-based assessment solution designed in partnership with the National Association of Headteachers (NAHT). Reporting in Frog Progress is highly adaptable, leaving you to decide what works best for your school and pupils.

“Teaching, Learning and Intervention”

Frog Progress is ideal support for teaching and learning that’s backed by sound assessment practice. Use it to identify attainment gaps for early intervention.

Upload exemplar materials so staff, pupils and parents understand what needs to be achieved.

Allow staff to share lesson plans, teachers notes, revision materials and homework.

When combined with Frog Play, teachers can set self-marking quizzes to plug attainment gaps.

Provides access for parents to support and understand their child’s progress.

Works for every school, across all key stages.

Finally...

For too long assessment has been a destination, not part of the learning journey. Frog Progress puts assessment back at the heart of teaching and learning, integrating perfectly with the Frog product family, saving teachers time and reducing workload for all.

Our range of Frog products integrate seamlessly with each other to provide a single solution for your needs.
