

Frog Store

Overview

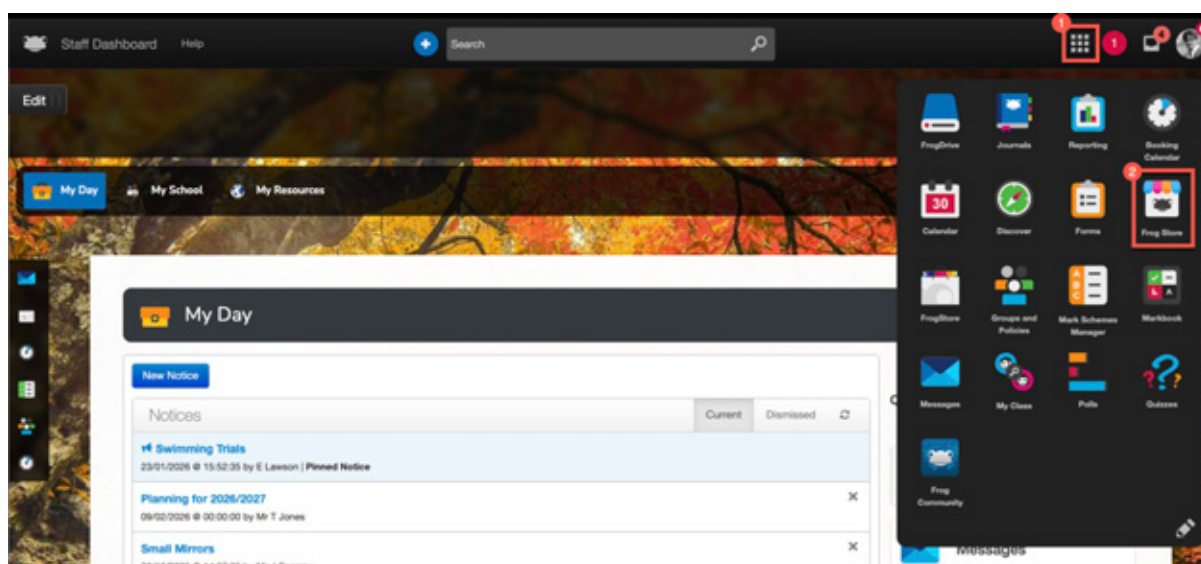

Staff and admin users will now have access to a new application called Frog Store, available via the Quick Launch menu. This allows schools to directly install the following into their platform:

- Products – From Digital Planners to Finance Portals, Frog has you covered!
- Content Sites – A curated collection of educational resources to support teaching and learning.
- Themes – Additional styling options to enhance the visual design of your platform.

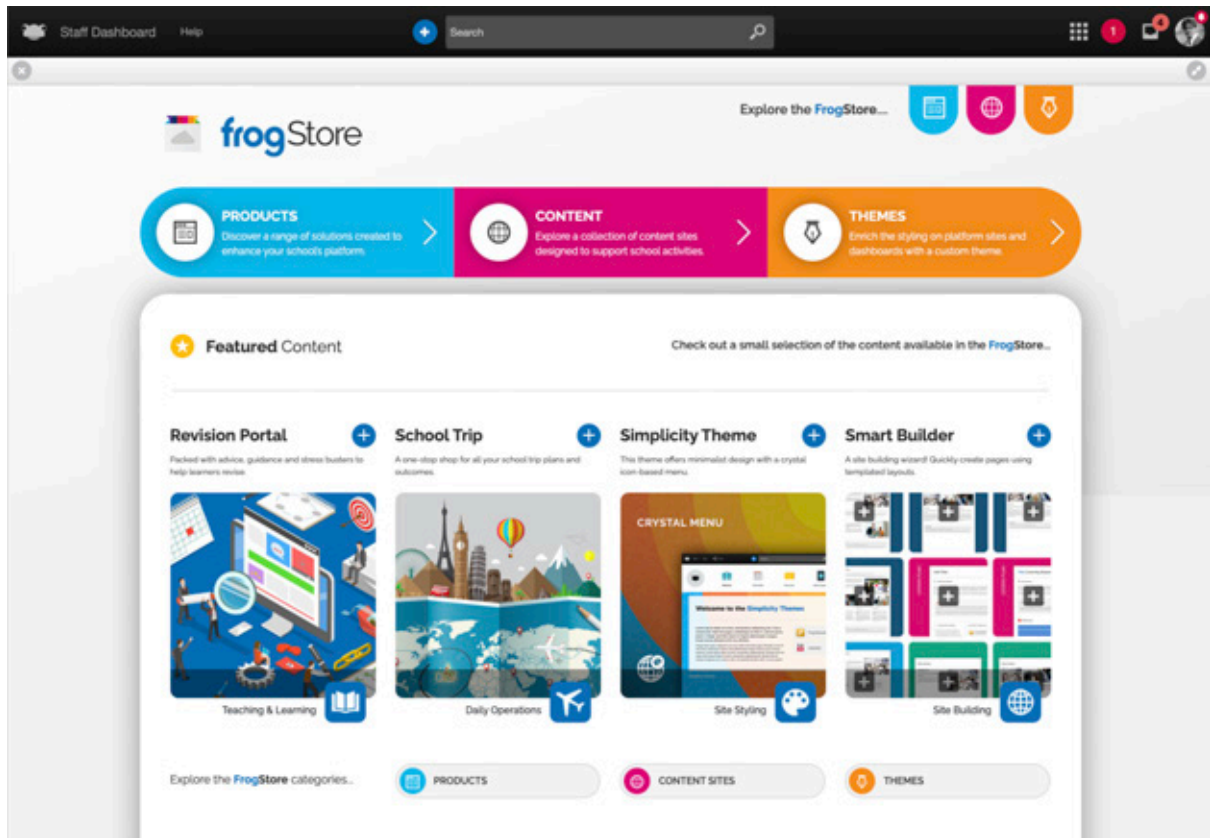

The Frog team will be adding new content to Frog Store on a regular basis, so be sure to check back frequently for fresh ideas and tools to make your Frog platform more engaging for both teaching and learning.

How-to

When staff or admin users open the Quick Launch from the Frog Bar, they will now see a new application called Frog Store.

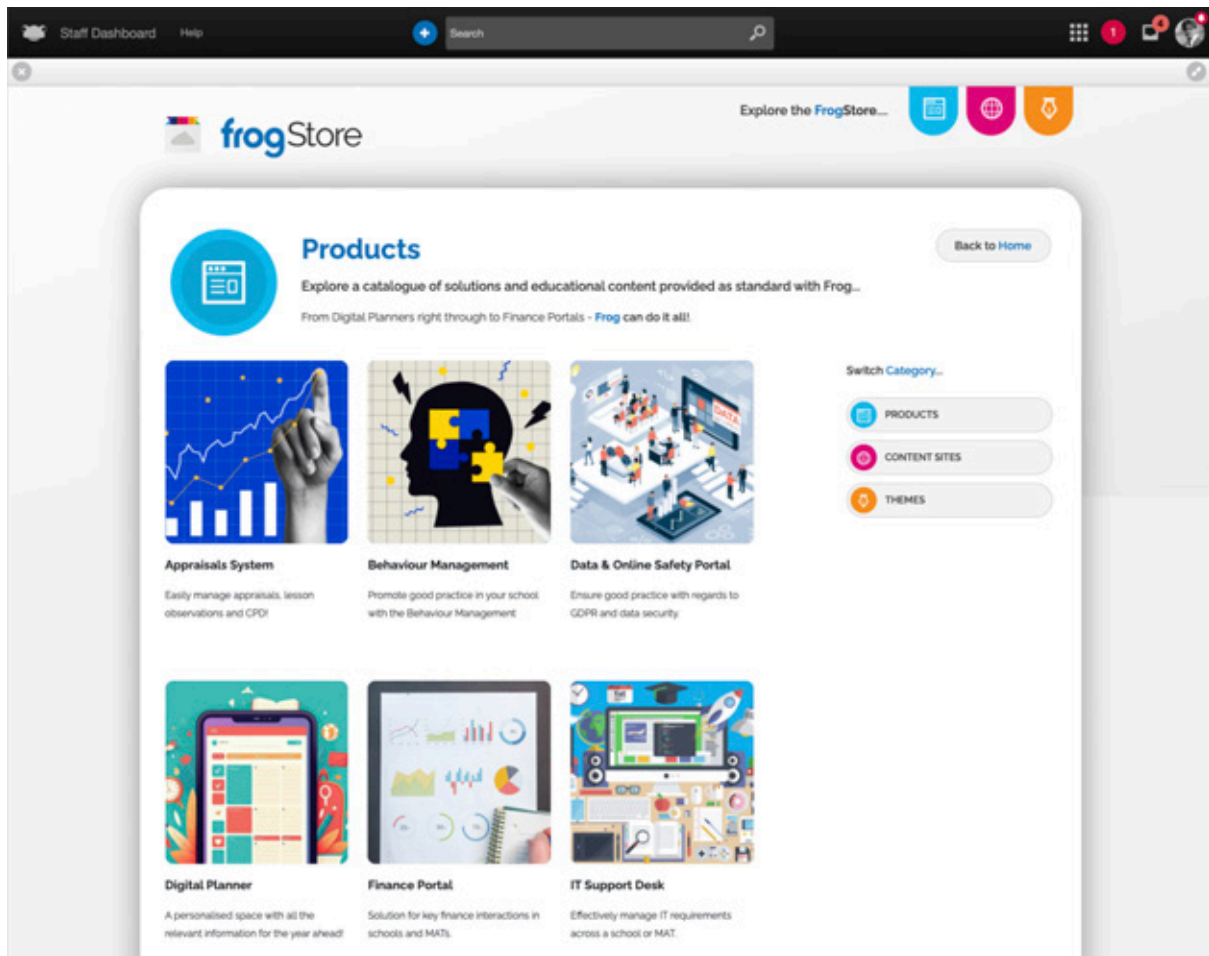

After selecting Frog Store, you'll land on the Featured Content page, showcasing new content you may be interested in.

The Frog Store is divided into three sections: Products, Content Sites, and Themes.

Selecting Products will display a range of pre-built sites, from Digital Planners to Finance Portals. See below for a small sample.

If you select one of the products, for example, the Revision Portal, you'll be presented with detailed information about it, including a description, preview images showing how the site will appear once installed on your Frog platform, and a list of widgets used within the product.

Revision Portal

Created by Frog Education

Install on my platform

Back to Home

SCREENSHOTS

DESCRIPTION

Created by schools and preloaded with everything a learner needs, for calm and effective revision!

Since it's built in Frog, you can easily edit the site and make changes. You can add your own advice, links and messages.

In the Revision Tips section, students can find advice on preparing their timetable, and using flashcards and mnemonics to boost their memory.

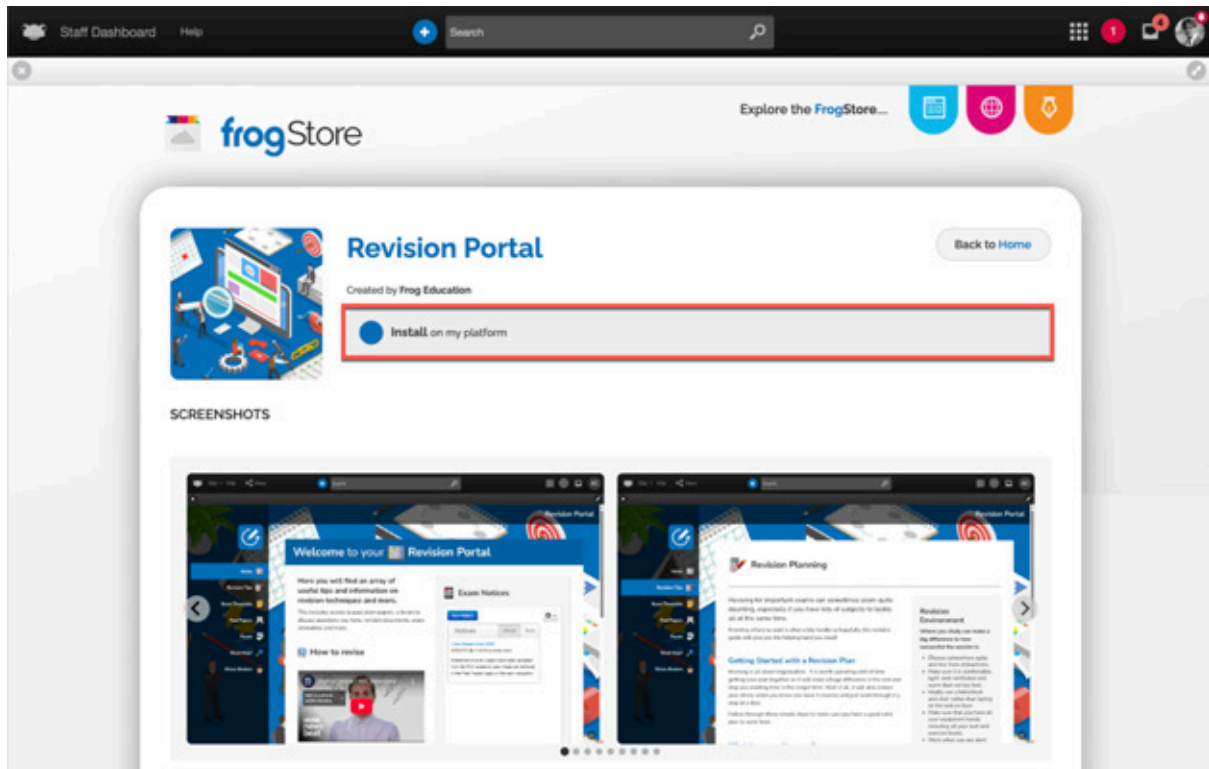

There is also space to add past papers via a shared folder and a dedicated forum where learners can ask for advice from their peers.

+ For Students + Supports Revision + Cost No additional fees

The **Revision Portal** site uses the following features out of the box...

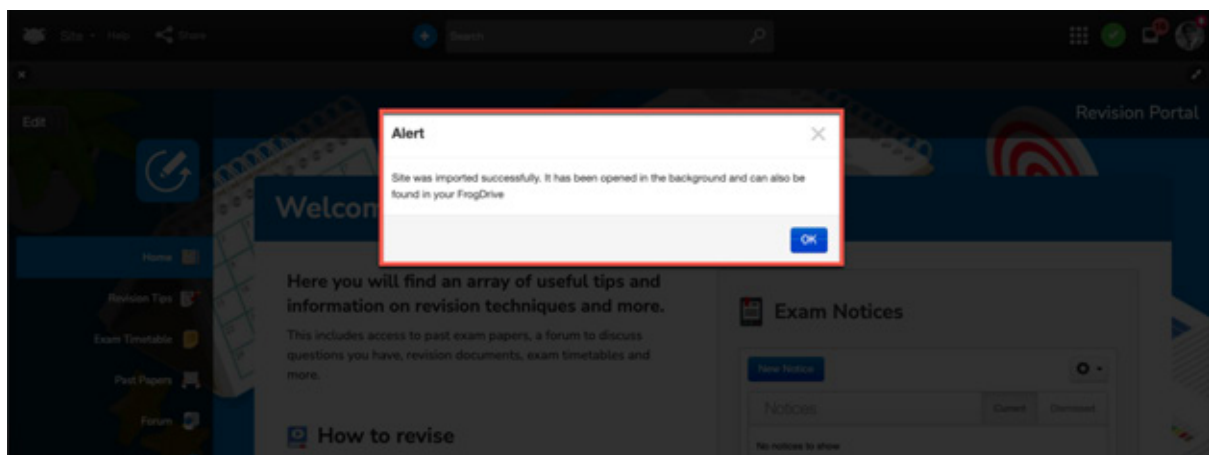

- Shared Folders
- Site Link
- Forum
- Link to File

If you'd like to have the product installed on your Frog platform, simply click the Install on my platform button.

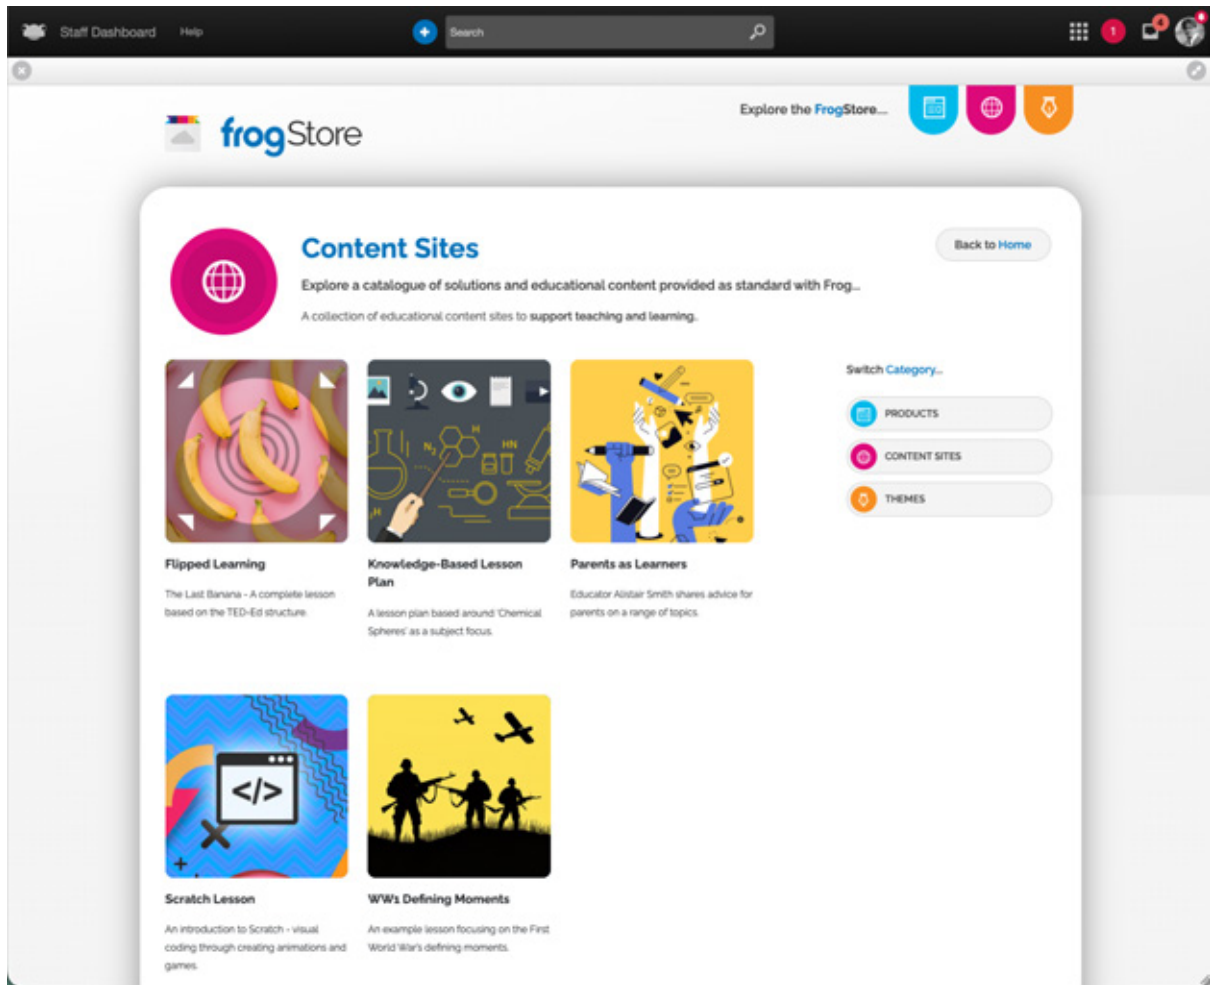

The site will be installed in the background, and once complete, a pop-up window will appear confirming the successful installation.

Click OK to dismiss the window, your site is now ready for you to begin editing.

Next, selecting Content Sites will display a range of pre-built sites focused on educational resources designed to support teaching and learning. See below for a small sample.

If you select one of the sites, for example, the WW1 Defining Moments, you'll be presented with detailed information about it, including a description, preview images showing how the site will appear once installed on your Frog platform, and a list of widgets used within the product.

The screenshot displays the 'WW1 Defining Moments' product page on the Frog Education platform. At the top, there is a navigation bar with 'Staff Dashboard' and 'Help' on the left, a search bar in the center, and system icons on the right. The product card features a yellow and black logo with silhouettes of soldiers, the title 'WW1 Defining Moments', and a 'Back to Home' button. Below the logo is a 'Created by Frog Education' label and an 'Install on my platform' button. The 'SCREENSHOTS' section shows two mobile device views: one displaying an 'Assignment solutions' page and another showing a 'Media 1 Resources' page with a 'WW1 PART ONE' graphic. The 'DESCRIPTION' section contains text about the product's focus on WW1 causes and its use of Frog's interactive tools. A summary bar lists features: 'For Staff & Students', 'Supports Teaching & Learning', and 'Cost: No additional fees'. At the bottom, a list of features includes Site Timeline, Quiz, Polls, Text Activity, and Forum.

SCREENSHOTS

First World War Defining Moments SWA - Y10 L6

Assignment solutions

Media 1 Resources

DESCRIPTION

This is the first of several units looking at the reasons that triggered WW1 and how they would impact today.

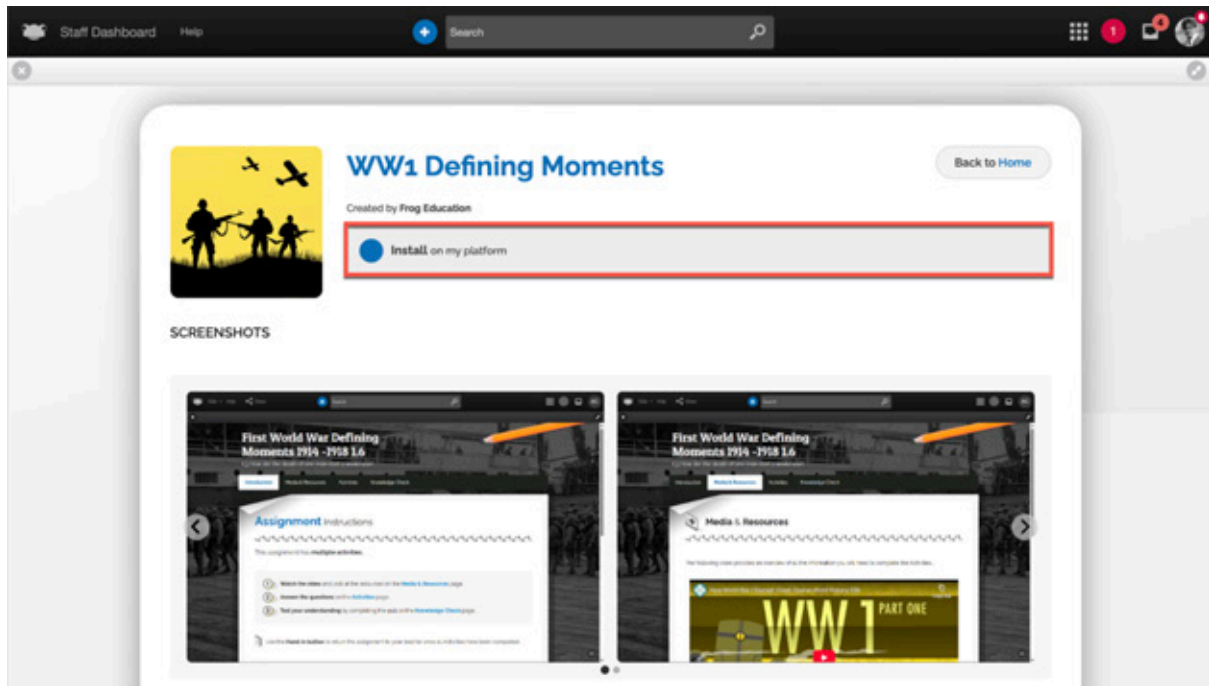

Using Frog's functionality to create timelines and self-marking quizzes to stimulate and question how we would react today. This also gives teachers a unique insight into the whole class using this as an assign-a-page activity.

For Staff & Students Supports Teaching & Learning Cost: No additional fees

The WW1 Defining Moments site uses the following features out of the box:

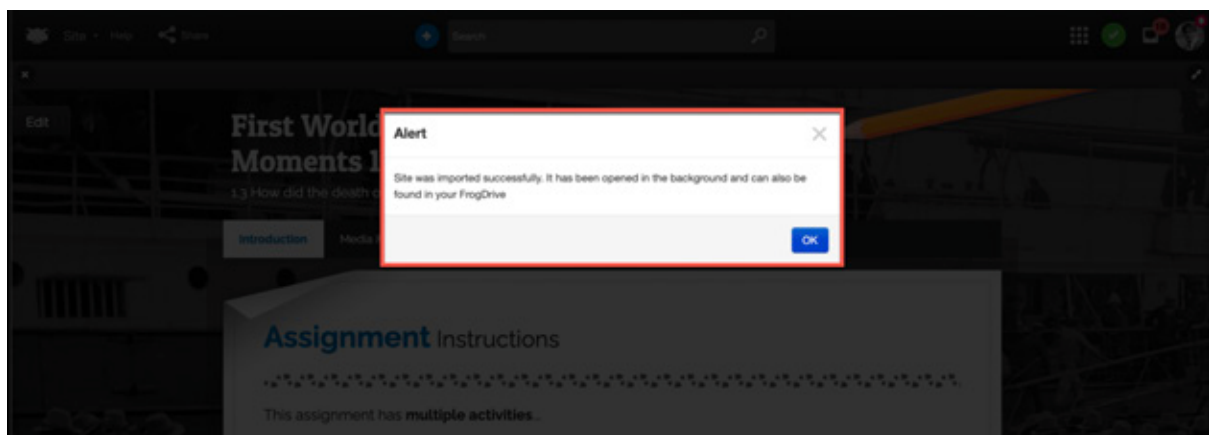

- Site Timeline
- Quiz
- Polls
- Text Activity
- Forum

If you'd like to have the site installed on your Frog platform, simply click the Install on my platform button.

The site will be installed in the background, and once complete, a pop-up window will appear confirming the successful installation.

Click OK to dismiss the window, your site is now ready for you to begin editing.

Lastly, selecting Themes will display a range of pre-built designs to help style your sites and enhance the presentation of content. See below for the newly available themes.

The screenshot shows a web application interface for 'frogStore'. At the top, there is a navigation bar with 'Staff Dashboard', 'Help', a search bar, and user profile icons. Below the navigation bar, the 'frogStore' logo is visible on the left, and 'Explore the frogStore...' with three colored icons (blue, pink, orange) is on the right. The main content area is titled 'Themes' and features a 'Back to Home' button. A sub-header reads: 'Explore a catalogue of solutions and educational content provided as standard with Frog... Increase your styling options with one of our additional frog theme designs.' To the right of the theme cards is a 'Switch Category...' section with three buttons: 'PRODUCTS' (blue), 'CONTENT SITES' (pink), and 'THEMES' (orange). The 'THEMES' button is currently selected. There are five theme cards displayed, each with a preview image and a description:

- ACCORDION MENU**: Simplicity Theme | Accordion. This theme offers minimalist design with an accordion menu.
- CRYSTAL MENU**: Simplicity Theme | Crystal. This theme offers minimalist design with a crystal icon-based menu.
- DROPDOWN MENU**: Simplicity Theme | Dropdown. This theme offers minimalist design with a crystal icon-based menu.
- DUAL NAVIGATION MENU**: Simplicity Theme | Dual Navigation. This theme offers minimalist design with a dual navigation menu.
- FLYOUT MENU**: Simplicity Theme | Flyout. This theme offers minimalist design with a flyout menu.

If you select one of the themes, for example, the Simplicity Theme | Accordion, you'll see detailed information, including a description and preview images showing how the theme will appear when applied to a site within your Frog platform.

Install on my platform

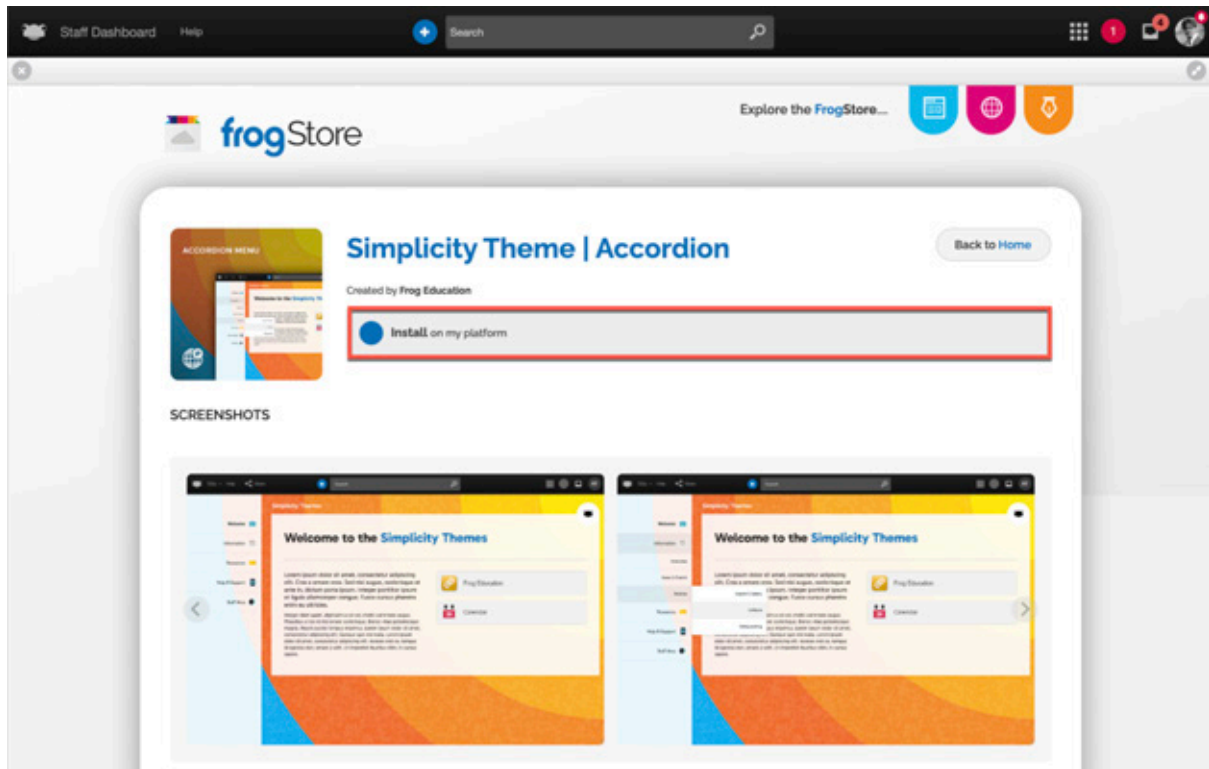

SCREENSHOTS

DESCRIPTION

The Simplicity set of themes have been designed to provide you with a minimalist style to ensure your site content becomes the focus of the user's experience. This version of the theme uses a left accordion menu.

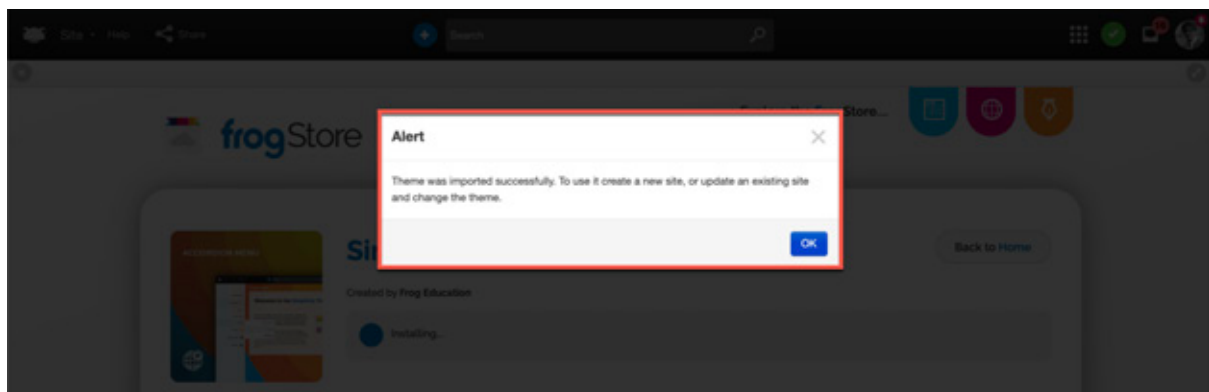

+ For All Users + Supports Site Building + Cost No additional fees

If you'd like to have the theme installed on your Frog platform, simply click the Install on my platform button.

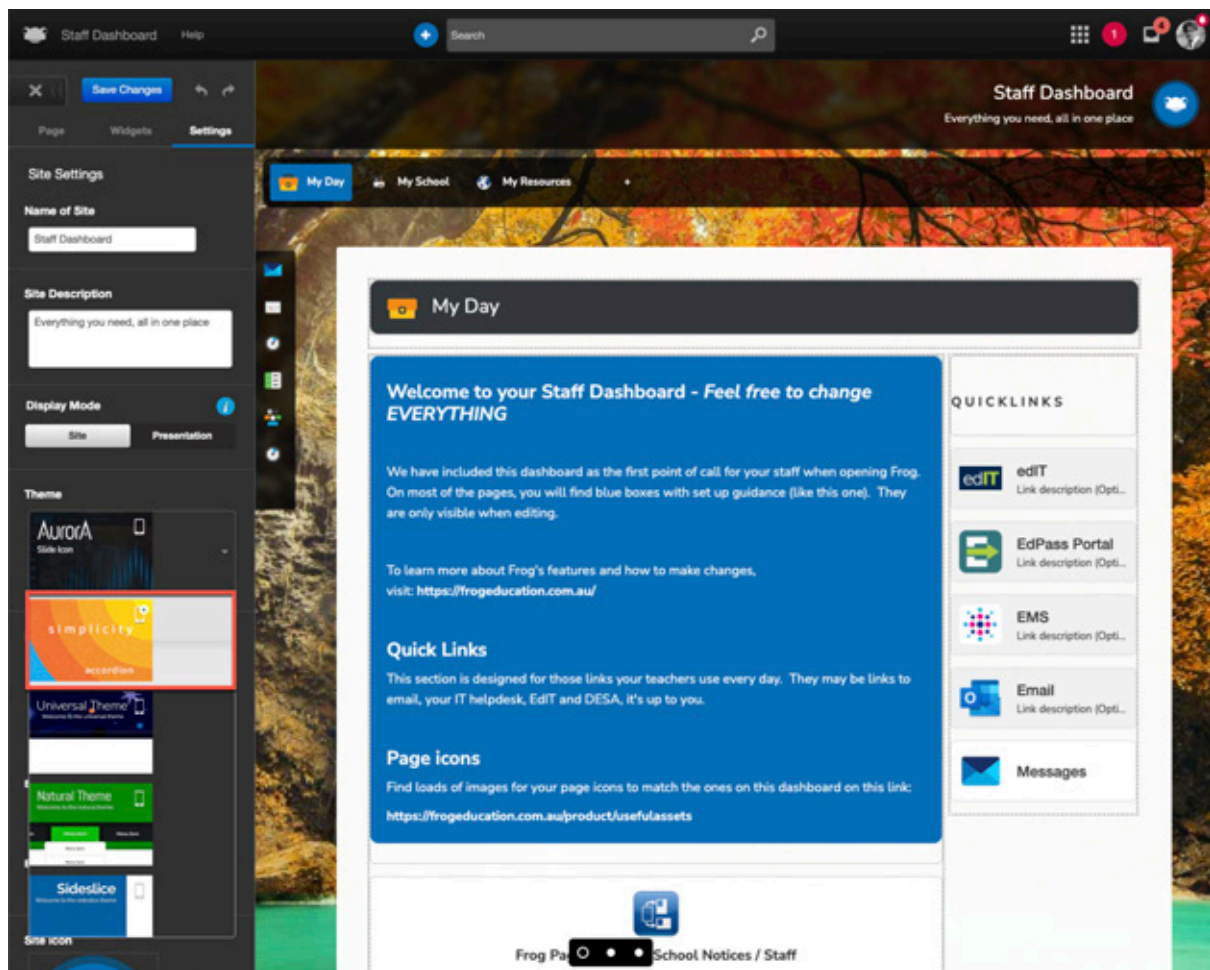

The theme will be installed in the background, and once complete, a pop-up window will appear confirming the successful installation.

Click OK to dismiss the window.

To apply your newly installed theme, navigate to a site, enter edit mode, then go to Settings > Theme, where the new theme will appear in the list.

Additional Information

A few important notes regarding the installation of sites and themes from the Frog Store:

- Sites – When a site is installed from the Frog Store, it will be installed every time a user selects the Install on my platform button. This is because there's no way to determine whether an already installed site has been edited by the individual staff/admin, so each installation is treated as a fresh copy.
- Themes – A theme will only be installed once per Frog platform, regardless of how many times the Install on my platform button is clicked. Once installed, the theme is available to all staff/admin users when editing sites.
